

VT 72 PT camera series system

Watertight camera with pan and tilt function and integrated lighting

Applications and features

Applications

- All underwater inspections and monitoring applications
- Nuclear applications (refueling offloading maintenance)
- Industrial applications
- Decommissioning applications

Features

- Robust and modular design → stainless steel or anodized aluminium body
- Zoom lens 18x optical / 12x digital
- High-resolution camera for detailed pictures → available in Full-HD as VT 360 PT
- Easy handling
- Integrated LED lighting
- Pan and tilt functions
- Watertight

VT 72 PT with stainless steel body

VT 72 PT with stainless steel body with additional VT 200 LED bars

Watertight color camera with 18:1 optical zoom. Equipped with Pan-Tilt function, integrated LED lighting and extended camera functions makes it ideal for all inspections in nuclear technology. The stainless steel body it fully resistant against agressive chemicals and seawater.

VT 72 PT with anodized aluminium body

VT 72 PT with aluminium body

Watertight color camera with 18:1 optical zoom. Equipped with Pan-Tilt function, integrated LED lighting and extended camera functions makes it ideal for all inspections in nuclear technology. The lightweight aluminium body is resistant againts most chemicals contained in radioactive wastewater.

VT 72 PT with stainless steel body and protectors

Camera protectors

Stainless steel protectors for VT 72 - VT 300 and VT 360 PT HD camera series. Recommended when used in environments where rough handling cannot be avoided.

Technical data - VT	72 PT
Material	Stainless steel or anodized aluminium
Image sensor	1/4" Super HAD CCD / resolution 530 lines horizontal
Video output	Y/C or FBAS / PAL-NTSC
Zoom	18x optical / 12x digital
Field of vision	48° - 2.8° hor.
Focus	Auto or manual
Pan / tilt range	Infinite / 220°
Illumination	4 x 22W LED
Dimensions	246,5 x 117 x 134 mm (Lenght x Width x Diameter)
Weight	approx. 5 kg stainless steel / approx. 3 kg aluminium
Temperature	0 – 50 °C
Pressure water tight	5 bar
Radiation resistance	1500 rad/h (15Gy/h) / Total 25000 rad (250 Gy)
Accessories	
Protector	Camera protector
Laser module	Laser module for measuement applications
Related / compatible products	
Control units	
VT 300-3 CU	19"-Rackmount / Standalone control unit
VT 6360 CU	Mobile control unit with integrated monitor in PeliCase
VT 42 CG CU	IP67 protected control unit with additional integrated gripper control
Software	
Measurement SW	VIAS Laser measurement software for documentation purposes
Deployment tools	
Carbon poles	Sealed wired and non-wired carbon poles in various lenghts for
Manipulatora and	easy deploment of camera system
Manipulators and holders	Various Tripods, holders and mounting units available
noiders	
Lighting	
Additional lighting	Various additional lighting sources available - for increased
Tradicional lightning	illumination of objects and surrounding inspection area
	manufacture of the second of t
Cables	
Cable reels	Various cable reels with adaptable cable lenghts available, motor-
	driven if needed
Single cable	Single cable for fast and flexible cabling, various lenghts

Related products and accessories

Control unit VT 6360 CU

Compact control unit in watertight PeliCase with integrated monitor and optionally integrated text inserter

Control unit VT 300-3 CU

Rack mountable or standalone control unit in 19-inch case for VT 72, VT 300 and VT 360 PT HD camera series

Control unit VT 42 CG CU

Control unit with remote control for 2 cameras and 1 gripper with IP67 protection
